Client's Name: _____ Date: _____

Client's Phone #: _____ Client's e-mail: _____

Referring Attorney (Please Print): _____

- Please treat and manage my client for all injuries sustained
- Please treat and manage my client for Concussion (TBI) injury only
- Please assess my client for concussion with objective findings from the Cognision™ EEG/ERP and send my client back to me with the neurologist's findings.

Cognision Systems® is an FDA cleared EEG/ERP* used by neurologists and major pharmaceutical companies including Merck. But, because it's so easy to use it's perfect for all doctors as part of an in-office protocol for evaluation of **Concussion (TBI)**, **Post-Concussion Syndrome (PCS)** and **Dementia** including **Alzheimer's Disease**. Accepted by Medicare and insurance. Excellent for objective findings of negative imaging brain injuries. *Cognision-type ERP evaluation for TBI is recommended by one of the world's leading evidence based medical guidelines.*
